Frontend Software Engineer

Nataliia Shobotova

Frontend Developer with hands-on experience building responsive web applications using modern web technologies. Over 5 years of software engineering experience in the finance and banking industries, with a primary focus on SQL and maintaining complex systems. Transitioned into frontend development to pursue growth opportunities and build high-quality, user-focused products. Completed multiple web development programs, including Microsoft Cloud Advocates and freeCodeCamp certifications.

Personal frontend projects

Portfolio Website

HTML5, CSS/SASS, Render

- Developed a responsive personal website to showcase projects, skills, and experience.
- Created maintainable styles using Sass pre-processor.
- Deployed website using cloud application platform Render.

Tip calculator app

TypeScript, HTML5, Tailwind CSS, GitHub pages

- Built shared tips calculator to provide a person's bill with user-friendly error handling and input validations.
- Styled a mobile-first responsive layout using Tailwind CSS.
- Hosted project on GitHub pages.

Online store website

Vite, React, TypeScript, Tailwind CSS, MongoDB

- Bootstrapped React/TypeScript project using frontend build tool Vite.
- Implemented product list, interactive shoping cart, personal cabinet and orders management system.
- Data persistence based on the managed MongoDB solution.

Work experience

MS SQL Developer EPAM Systems Ukraine

August 2015 - April 2018 | Ukraine

Project: Investment Bank

- Developed and optimized SQL scripts, stored procedures, and triggers for enterprise applications in the investment banking domain.
- Improved performance of high-load queries through analysis and optimization.
- Participated in debugging, unit testing, and system integration workflows.
- Collaborated with cross-functional teams and contributed to technical documentation.

System Engineer Honeywell Process Solutions

August 2010 - August 2015 | Ukraine

Projects: Arcelor Mittal Kryvyi Rih, Paper Mill (Obuhiv and Arkhangelsk)

- Configured MES (Manufacturing Execution System) solutions for industrial clients.
- Developed technical reports using SQL Reporting Services and Crystal Reports.
- Documented system configurations and provided technical guidance to customers.
- Worked closely with engineering teams to implement system improvements.

Education

National Technical University of Ukraine "Kyiv Polytechnic Institute"

Computer-integrated systems and complexes in the chemical industries

September 2004 - June 2010 | Ukraine

Courses and Certifications

- **Microsoft Cloud Advocates -** Web development for beginners
- **freeCodeCamp (FCC) -** JavaScript Algorithms and Data Structures Certification
- **Self-learning projects -** Frontend Mentor challenges
