FrontEnd developer

Nataliia Shobotova

I have over 5 years of experience in software development, specializing in applications based on MS SQL and Oracle for the finance and banking industries. Recently, I transitioned my focus to front-end development. Over the past few years, I completed an comprehensive course provided by Microsoft Cloud Advocates and acquired certificates from freeCodeCamp. I have developed web applications using contemporary technology stacks, emphasizing the development of responsive web applications, including my portfolio website to exhibit my work and skills. My proficiency encompasses vanilla HTML, CSS, and JavaScript, as well as popular libraries and frameworks such as React.

Work experience

MS SQL Developer EPAM Systems Ukraine

August 2015 - April 2018 | Ukraine

Project: Investment Bank

- Provided migration data between adjacent systems
